

# Global Edge® 2017 – DXF Analyzer

The Power to Succeed in a Global Market

**Global Edge® 2017 – DXF Analyzer** provides a simplified method to analyze sheet metal parts for the purposes of quoting and routing generation. This includes simple one click technology that generates the sheet metal part parameters required to generate accurate sales quotes and routings.

Try the **Global Edge® 2017 – DXF Analyzer** free for 30 days to find out how quick and simple it can be to automatically analyze your sheet metal parts to speed up your quoting and routing generation process.

## Automatically Calculates

- Flat Length & Width
- Part Perimeter & Cutout Perimeter
- Cutout Type & Cutout Counts
- Bend Type & Bend Counts

**Try it Free for 30 Days**

[Click to Register & Download](#)

Tryout **Global Edge 2017 – DXF Analyzer** for 30 days to discover how your company can accelerate your quoting process by eliminating the time it takes to manual measure and analyze sheet metal parts.

## Key Features

- One-click analysis of sheet metal part parameters
- Automatic sheet metal part parameter calculations
- Import engineering parameters into quoting process
- Export results to Excel file

## Key Benefits

- ✓ Eliminates manual analysis of sheet metal parts
- ✓ Provides accurate information for quoting
- ✓ Provides parameters for machine tool / routing selection
- ✓ Increases capacity / accelerates quoting process

## Increase Engineering Productivity!

"Global Edge allows engineering to control the product which has dramatically increased the efficiency of the engineering and manufacturing departments."
