

Global Edge® 2018 – SolidWorks File Exporter

The Power to Succeed in a Global Market

Global Edge® 2018 – SolidWorks File Exporter provides a simplified method to automatically export your 3D SolidWorks CAD Models into DXF files that are prepared for your manufacturing systems. **Global Edge** will drill through your assembly CAD Models and automatically identify sheet metal components. This includes the generation and export of flattened DXF files with either a single part file or batch of part files and assemblies. **Global Edge** can also export SAT, IGES, STEP, STL, Additive Manufacturing, 3D Manufacturing, PDF, and JPEG

Global Edge® 2018 – SolidWorks File Exporter can help your company accelerate your engineering process by reducing the amount of time it takes to generate shop floor information.

Key Features

- Automatic drill down of sheet metal parts from assembly
- Automatic generation of DXF flat files
- Automatic generation of CAD files for bending machines

Key Benefits

- ✓ Eliminates manual generation of DXF flat files
- ✓ Automatically prepares CAD files for nesting software
- ✓ Speeds up manufacturing engineering process
