Automated CAD Drawing Analysis

Part Parameters

- Flat Length / Width / Perimeter
- Part Weight / Part Volume
- Material / Thickness
- Number of Cutouts
- Cutout Perimeter
- Round Hole Counts / Sizes
- Obround Hole Counts / Sizes
- Rectangular Hole Counts / Sizes
- Other Hole Counts / Sizes
- Bend Counts (Up / Down)
- Internal Bend Counts (Up / Down)
- Total Bends / Total Folds
- Cutout / Part Distance

Global Edge generates the necessary part file parameters to automatically generate routings for each quoted CAD part / drawing.

Global Edge 2020 Automated Quoting

automatically processes incoming customer 3D CAD models / drawing files and analyzes these files to generate complete part parameters in a matter of seconds, which eliminates the manual analysis for the purposes of speeding up the quoting process and improving accuracy.

Real World Results & Successes ...

"Without the **Global Edge** – Product Configurator, we would need to create hundreds of bill of materials (the list of damper components), which requires hundreds of engineering and clerical hours to create and maintain. Orders that once took up to four hours are now processed within 20 seconds."

Steve Yoder, Damper Cell Manager Johnson Controls – Watertown, Wisconsin

TDK-Lambda AMERICAS

"Within one year of implementing **Global Edge** the time from order entry to shipment of customer power supplies decreased from four months to three weeks."

John Garcia, V.P. Engineering Lambda Electronics, Inc. – Melville, New York
